

FIPSE Project Impact Survey

We are trying to discern the impact that the FIPSE Project has had thus far on you, your colleagues, your department, and on your college or university.

1. Please check the following categories that describe how the FIPSE Project affected you, your colleagues, your department, and your college or university. **(CHECK THE CATEGORIES THAT APPLY)**
 - Project motivated me to conduct research that is associated to the math teacher preparation standards
 - Worked on a thesis or research paper on a topic related to the project
 - Did outreach to mathematics faculty about the importance of math teacher preparation and the standards
 - Collaborated with other math teacher educators through project meetings
 - Collaborated with other math teacher educators at my college/university and at other colleges/universities across levels (i.e. EC-4, 4-8, 8-12)
 - Increased collaboration between math education and mathematics faculty
 - Shared materials with math faculty and increased their interest in looking at materials developed by the FIPSE project
 - Informally disseminated ideas/materials to faculty and administration at my university/college
 - Worked with other project participants (i.e. writers, advisory board members) to create a common language of problems
 - Used problem(s) presented at the 2002 conference in my classes with or without changes
 - Used the problems that I and other writers created in my own classes
 - No impact

2. Which of these impacts would you consider to be the most important? **(IDENTIFY ONE CATEGORY)**

3. Has the FIPSE project affected you, your colleagues, your department, and your college or university in **any other ways**? Please describe.
